

IQ BATTERY

Replacing the IQ Panel's standard Li-Ion battery is easy. Please follow the steps outlined below. *Note: you should only attempt this with factory authorized battery part number QR0018-840*

IMPORTANT! BEFORE YOU BEGIN:

To avoid damage or voiding your warranty, you must **properly power down** the IQ Panel before you begin the steps below. *See installation manual for additional details if needed.*

Settings

Power Down

WAIT UNTIL
LED LIGHTS
ARE OFF

STEP 1: DISCONNECT BATTERY

Remove retaining screw and back plate from the panel, then unplug the battery.

STEP 2: REMOVE RETAINING CLIP

Remove the battery retaining clip and screw.

STEP 3: REMOVE OLD BATTERY

Use a finger or thumb and pull up firmly on the battery to remove.

Do NOT use a screwdriver or anything sharp that could puncture the battery.
Do NOT pull on the battery cable to try and remove battery.

STEP 4: INSTALL NEW BATTERY

Place new battery into the battery slot (bottom first) pushing down into place. **To ensure easier battery replacement in the future, do NOT use adhesive tape.** Screw down retaining bracket, plug in battery and replace panel back plate.
