5870API Wireless Indoor Asset Protection Sensor
Quick Intallation Guide
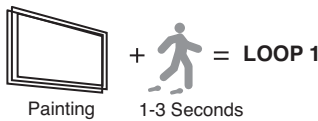

Step 1. Select Location

Gun Case/Safe
Paintings
Large Screen TV
Computers
Jewelry Box
Valuables
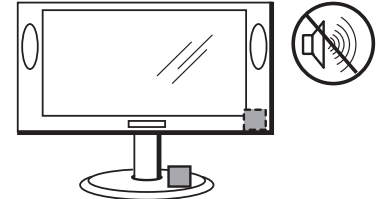

- Avoid sources of vibration (i.e. speakers, fans, motors)
- Choose a stable, clean, flat surface
- Mount in an inconspicuous area

Step 2. Select Operating Mode

⚠ LOOP 1 is for High Security (Fast Trigger) applications and should ONLY be used if the asset will NOT be subject to external vibration. Loop 2 (Standard Security mode) should be used in most cases.
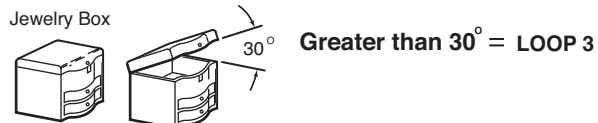

Painting + (1-3 Seconds) = **LOOP 1**

High Security (Fast Trigger) Mode (Loop 1)

Large Screen TV + (5-8 Seconds) = **LOOP 2**

Standard Security Mode (Loop 2)

FAULT
LOOP 3 $30°$ OR $30°$ **LOOP 3**
NORMAL

MOUNT HORIZONTALLY ONLY (LOOP 3 ONLY)

Jewelry Box $30°$ **Greater than $30°$** = **LOOP 3**

Tilt Mode (Loop 3)
