

How to install your u-TRAQ™ GPS tracking unit

- 1 Locate the **On-Board Diagnostic (OBD)** port on your vehicle. It is usually on the driver's side under the dash. If you have trouble locating it, a list of OBD port locations can be found at www.obdclearinghouse.com.
- 2 Remove the OBD port's cover and insert the tracking unit. Keep the door of the vehicle open until the "G" LED lights up, indicating a GPS connection.
(This could take from four to twenty minutes. The engine does not need to be running.)

Wait an additional five minutes for the unit to receive its programming (first time only), then login to the tracking website at: _____

Your login name is: _____

Your password is: _____

Begin tracking your vehicle with the easy-to-use mapping software. That's all there is to it. If you have trouble, visit the tracking website for an FAQ page or contact your dealer directly.
